The list had scarcely been read when Comptroller Myers moved that it be printed and laid over. Commissioner Voorhis said that there was no reason why there should be any delay in making the appropriation, because all the expenses except \$150,000, which will be required to fulfit the requirements of the new ballot law, have been the regular election ex-penses. The Comptroller remarked that the natter was important, and that it should take the usual course. Mr. Voorhis offered to explain anything that was not clear to Mr. Myers.

Tax Commissioner Coleman suggested that
final action on the matter be deferred until
Friday.

Mr. Voornis—It is to be hoped that the Legishature next year will improve upon the present law so that fewer number of booths will do.

The Mayor—If Mr. Voornis thinks that no harm will be done by delay we might lay the matter over until to-morrow, but I decline to take any responsibility.

Mr. Myers—That responsibility rests with the Potice Commissioners.

It was finally decided to lay the matter over until 12 o'cleek to-day, when final action will undoubtedly be taken.

Then the Board tackled the knotty school problem. The Mayor had promised early in the day to come down heavy on the School Commissioners. The only Commissioners present were O'Brien and Tamsen, and the Mayor addressed them.

"You said last year." he said, "that if you

present were O'Brien and Tamsen, and the Mayor addressed them.

"You said last year." he said, "that if you had sufficient money you would be able to assure us that no child should be debarred from attending school for lack of proper accommodations. When the question of acquiring a site for a new school at Fifty-ninth street and Park avenue came up you repeated the same statement, and you again repeated it when we gave you the Hebrew Orphan Asylum. I am sorry to see now that there is cause for complaint. Now, I want you to tell us what can be done to remedy this state of things and to secure proper accommodations for the children in the public schools."

The School Board is not to blame." said Commissioner O'Brien. "Resolutions have been introduced in the Board looking toward improving the present condition of affairs, and the trustees of the different wards have been asked to explain what the trouble is. The fault rets with the trustees; they alone are responsible."

"This Board gave you all the money you wanted last year, including \$180,000 for new teachers. If you can't get adequate accommodations we want to know it now."

"The amount to the credit of the School Board for building purposes is \$1,650,000." said the Compiroler. "Why don't you go shes I and build!"

"I shall call a special meeting of this Board."

Tax Commissioner Coleman reported in favor of a driveway along the North River, north of Seventy-second street, and the building of a sea wall from Seventy-second to Seventy-sixth street. The sum of \$55,000 was divided among a number of charitable institutions. The Foard authorized the isau 39,988 to meet the expenses of the Washington Bridge. Plans for the extension of the northern end of the Metropolitan Museum of Art, which were approved by Gen. di Cesnola, were submitted. Judge McAdam wanted the unnaid portion of the salary of the late Judge Nerbasa amounting to \$430, transferred so that it could be used to having books for the City Count. Register Fitzgerald asked for \$10,000 of the \$25,000 which it will cost to begin a new block system in his office. No action was taken on any of these matters.

JOY OF THE SIX AGRESTED CAPTAINS. They Foresee Confusion for Col. Camp, but it's Early to Prophesy.

Somebody suggested yesterday that the next step in the Twenty-second Regiment war would be the arrest of Col. John T. Camp on the charges preferred by the six Captains, Thir would be a natural proceeding, and it may happen some time within the next twenty days after Gen. Fitzgerald has sent his report to Albany. This, he says, he will do before Satur

Albany. This, he says, he will do before Saturday, When, however, the idea of putting Col. Camp under arrest grew big enough to be called a rumor, there was great rejoicing among the six.

"Hooroo!" said they; "with Col. Camp arrested, Lieut.-Col. King will be in command, and, as he is on our side, the first thing that he will do will be to release us from arrest. Then we can go ahead and act.

This looks like a beautiful scheme for overceming the blockade set against the six by Col. Camp's maneuver but it is not certain to work. A soldier of long experience and high rake was asked vesterday whether a subordinate, temporarily in command by reason of the arrest of his superior, could reverse the orders of his superior, could reverse the orders of his superior, could reverse the orders of his superior before the 'matter at issue could be tried by court martial." I pever heard the point raised before," he rapiled. "I don't believe military law would lostify such action on the part of a subordinate temporarily in command. Common sense, certainly, does not approve it, and if, in the scent of Col. Camp's arrest Liout, Col. King should release the six Captains. I believe he would be court martialled, if not summarily disjoined."

Correspondent O'Brien's Dilemma.

MONTREAL, Sept. 17.-Bichard N. O'Brien, the Montreal newspaper man who is charged with having been the author of the false and sensational despatch regarding Prince George, was brought up in court to-day to answer to an indictment of criminal libel. R. D. McGibbon, a Montreal lawyer, who is the private prosecutor Montreal lawyer, who is the private prosecutor in the case, deposed that he had seen the story in the New York newspapers and that the accounts were all the same. The manager of the Great Northwestern Telegraph Company produced despatches sent by O'Brien to the Philadelolia Press, the Foston Journal, and the Cincinnati Enquirer containing the same story.

The production of the despatches was objected to by O'Brien's counsel, but was allowed by the Court. The further hearing of the case was postoned. O'Brien persists in denying that he sent the story, and says he will fight it out. The citizens have raised a large find to cover the expenses of the prosecution, and a sirong effort will be made to convict O'Brien.

CONFECTIONS FOR ABSON BARE, Sector's Fire Marchal Secus to Mav

The success of Fire Marshal Whiteomb Boston in causing the arrest of a number of incendiaries each year and in obtaining sufficient evidence against many of them to se-cure conviction has attracted attention to Fire Marshal James Mitchell of this city. It is certain that a great many of the fire on the populous east side are of incendiary origin, and that the proceedings instituted against suspected persons generally end in a brief hearing before a Police Justice. In the few instances where persons have been in-dicted for arson their trials have resulted in a lisagreement of the jury, arising from a lack

The last conviction for areon in this city where the accused met with anything like proper punishment was in the case of the two Kohut brothers several years ago, who set fire to a building in which four lives were lost. They were sentenced to State prison for life. Even in this instance a woman who was concorned with them was set free because it was necessary to use her as a witness. The result of this state of things is an indisposition on the part of many insurance companies to grant policies to people of a certain class on

ed of this crime. A conservative trade paper in speaking of this matter recently said: "The frequent, if not daily, incendiary fires in the lower east side streets, and the rare convictions of the dangerous criminals who set them, are topics

into daily incendiary fires in the lower east side streets, and the rare convictions of the dangerous criminals who set them, are topies which interest insurance men greatly and should receive more attention from the general public. If the Fire Marshal's office is at fault, there is a chance for the authorities to lessen the labor of the Coroner and the engine commanies in the lower east side section by securing energic work in this mortant department. There must certainly be some reason why convictions for incendiarism are so rarely obtained in this city.

The Fire Marshal's comessed of Fire Marshal Jacob Frank, about \$1.880 a year, and Lawrence Michael and State 1. 1880 a year, and Lawrence Michael and State 1. 1880 a year, and Lawrence Michael and William Sauer, assistants at \$1.000 a year each. Policy Justice Hogan discharged Washauer on the ground that he had not been directly connected with the orime. A man named Joseph Kramer, who had sworn that he saw shaluer procure the bladders which were found in the room afterward retracted this statement. He is now being prosecuted for perjury. Another case was that of a man whose piano tactory at 55 West Thirty-sixth attreet was found to be on fire on March 18. He was arresied and beld in \$2,000 bail to answer to a charge of arson in the third degree. He was indicated and held. The jury disagreed, owing, it is said to the fact that the principal witness against him had been spirited away. From Mr. Mitchell's statement it appears that no better coudition of affairs in the future can be hoped for. The same hindrances he has met in collecting evidence will interfere in the future, and the character of the persons upon whom he depends for evidence is not likely to improve.

Fire Commissioner Purroy agreed with the statement of Mr. Mitchell concerning the difficulties attending the procuring of evidence against persons suspected of arson.

Investigators Begun. The Board of Governors of the Brooklyn Hebrew Orphan Asylum met last night at that institution and started the investigation of the charges made against Ernest Nathan, Hugo Hirsch, and Gustav Merzbach, leading members of the association, growing out of their action in the case of Superintendent Eisner. Late one night, about three weeks ago, Nathan. Hirsch. and Merzbach appeared at the asylum and summoning the superintendent, accused him of misconduct toward some of the girls under his charge. Elsner admitted, they say, that he had used indecent language, but he denied that any of his acts were culpable. On the following day, however, Elsner disappeared, and he is still missing. Subsequently the Board of Governors made a careful inquiry, and concluded that the Superintendent had been wrongly accused, and that Messra. Nathan, Hirsch. and Merzbach had acted with undue haste and in a most irregular manner, and the Board also resolved to make an investigation. A special committee was appointed at iast night's meeting to hold it. The sessions will be secret. than, Hirsch, and Merzbach appeared at the

The entertainment was a varied one, a feature being the exhibition of a large number of views photographed by the members and thrown on a screen. One of the most striking of these was a photograph of the big cast of Barye's ilon, exhibited in the Barye collection in the American Art Association's galleries last spring, and now in the Metropolitan Museum of Art. It was photographed by C. Italiard. There were a piano solo by Mr. Frank Moore a legerdemain performance by Mr. G. H. Simon, singing and a recitation by Mr. A. L. Comacho, and a mandolin solo by Signor M. Tipaldi. Pipes with long stems and papers of tobacco were about on all the tables and were in constant request.

CRICAGO, Sept. 17.—No nomination of a can didate for Director-General of the World's Fair was made by the Executive Committee of the National Commission to-day. The failure grew out of the fact that the gentlemen representing the local directory would not name a man for the Executive Committee to discuss. Early in the day President Palmer named the members of this Executive Committee, whose duties, among other things, is to nominate a candidate for Director-General. The local directory met the Executive Committee at the Council chamber late in the afternoon, and both bodies went

into executive session. It was a stormy meeting. The Executive Committee felt that the Commission it represented was under the act of Congress intrusted with the duty of naming this officer, but i also felt that it was necessary that its selec-tion should be satisfactory to the local directory. Vice-President Bryan, speaking for the directory, said that the directors present had not been empowered by the constitution or bynot been empowered by the constitution or by-laws to name the preference of that body for so important an office as Director-General. They were willing that the Executive Com-mittee of the National Commission should tase that duty on itself if it saw fit, and would not object to any selection the latter body might make, but would refuse to indicate any choice until a meeting of the full directory could be secured to discuss the matter.

"If we give you time for a meeting will you be able then to make a recommendation?" one Commissioner asked.
"We may be," was the gist of a speech by Mr. Bryan.

Commissioner asked.

"We may be," was the gist of a speech by Mr. Bryan.

The two bodies fenced in this way for two hours, and then adjourned until Friday. The local directory will meet to-morrow night.

The Executive Committee will at the meeting on Friday insist that the choice of the directors be submitted there and then.

Commissioner Way's motion, which was adopted to-day, that after the Executive Committee has nominated a caudidate for Director-General any Commissioner may be permitted to make other nominations, means that it is not the intention of the Commission to relegate the duty of choesing this officer to the Executive Committee, but that the election will be thrown into the full Commission, with a chance for every candidate to get a fair show.

Francis A. Walker of Philadelphia is now suggested as a suitable man for Director-General. Should he become a candidate be will injure the chances of Gen. Hastings. The directory will probably endorse George R. Davis at its meeting to-morrow night.

The salaries will be: President, \$12,000 a year; Becretary, \$10,000 a year; Director-General, \$15,000 a year.

Young Mr. Baird in a Fight. The Brooklyn Board of Flections has nearly perfected all the arrangements for the election in November. It will be a week or more before the rival parties settle down squarely to the work of the campaign, but considerable skirmisning is already going on all along the line. The Republicans met in their various ward and town associations on Tuesday night, and in most cases appointed committees to prepare tickers for the primaries on Oct. 2. In several wards there were battles royal between the contending factions and the meetings broke up in disorder. Andrew D. Baird, Jr., a son of Col. Baird, who twice ran for Mayor against Mr. Chapin, and was defeated each time, punched two members of the opposite faction in the face at the Nineteenth ward gathering. One of them, Alfred H. Collins, has applied for a warrant for his arrest, Michael J. Jiady recently moved from the Fourth to the Third ward, and on Tuesday night he accompilahed a strategic movement, which will probably land him in political control of the ward association. The regular officers of the association had arranged that no meeting should be held, but Mr. Dady and 100 of his followers organized one, and appointed a committee to make nominations for the primary.

The Jury Says Baby Coyle was Poisoned Coroner Messemer held an inquest vesterday in the case of Louisa Coyle, 7 months old, who died on June 12 at the Infants' Hospital on Randall's Island, and whom its mother, it was then believed, had poisoned. She had lived at 220 West Thirteenth atreet, and was sent to the workhouse, with her baby, for vagrancy and intoxication on May 20. A few days ago the baby was taken sick, and House Surgeon Charles Sylvester suspected it had been poisoned, and reported the case to Coroner Alessemer.

Fire in a Telephone Office.

Lightning on the electric wires fired the cupola on the roof of the Flemming building. in Montgomery and Washington streets. Jersey City, about 9 o'clock yesterday morning. The fire was soon put out, with a loss of between \$3,000 and \$4.000. The top floor of the building is used as the central office of the New York and New Jersey Telephone Company, and through the cupola passed 1,000 wires which afforded communication with every which afforded communication with every part of New Jersey. The wires passed from the cupola down to the switch-board in the big operating room. The switchboard was not injured. The New Jersey subscribers were entirely cut off from telephone communication with every part of the state. Manager McCully said last night that all connections would probably be com-plete some time to-day.

In August, 1888, Peter Aub, who is said to be brothero; the Paris banker of that name, was broker in New atreet. He received from Robert Vroom of 19 New street an oution in stock to sell for \$165. Aub said that he would stock to sell for \$165. Aub said that he would sell the option to a Mr. Phillips in Church attest. Yesterday morning Detectives Vallely and Evanhoe of the Central Office arraigned him in the Tombs Police Court on a charge of grand larceny. It is eaid that Aub sold the option for \$115 on the day he received it. He got a check for the amount, had it cashed, and salled away to Europe. The detectives found him on Tuesday night at his former boarding house at \$805 East Forty-second atreet. Aub was held for examination.

Philanthropic Interest in a Muined Girl. The Newark Police Commissioners have suspended Policeman Malone, pending an inves igation of the story told by Julia Begiev, the young girl who pleaded guilty to stealing a watch from a companion and who said that Malone ruined her. A number of influential citizens have become interested in the girl's case, and she will probably be released under a suspension of sentence. It is said she was a good girl until she fell under his influences.

Mormon Converts Stand by the Patth. The Barge Office made an ineffectual effort resterday to persuade five girl converts to Mormonism, who landed from the steamship Wisconsin in a party of seventy, to give up their new religion. The elders were ready with bonds to prove that they would take care of the girls and they were allowed to proceed. One of the preselytes, Eudolph Gyder, had with him a family of eleves children, the elders of whom was 21 and the rouses 2 years old.

THE UTAH COMMISSION SEES NO STANS OF MORMON SUBMISSION,

Inny Pinral Marriages are Still St Colobrated - The Commission S mends More Repressive Legislative SALT LARE CITY, Sept. 17.-The Utah Con mission has forwarded to the Secretary of the Interior a long report of its operations for the year ending Sept. 1. The principal feature of the report is the recommendation of further legislation in support of the existing laws. After reviewing the elections held in Utah since

their last report the Commissioners say: "During the year there has been frequent exression of the hope that the Church would, in some authoritative and explicit manner. declars in favor of the abandonment of polygamy or plural marriage as one of the saving do trines or teachings of the Church, but no such declaration has been made. There is little reason for doubting, so complete is the control of the Church over its people, that if such declaration were made by those in authority, it would be accepted and followed by a large majority of the membership of the so-called Mormon Church and a settlement of the Mormon question would soon be reached.

"On the contrary, in all the teachings in the

Tabernacle and in the Church organs every effort of the Government to suppress this crime is still denominated as a persecution. and those charged with ferreting out an prosecuting the guilty are denominated as ersecutors of the Saints.

The Church seems to grow more united from day to day under these teachings. At the General Conference of the Church, held at Sait Lake City in April last, Wilford Woodruff, a disfranchised polygamist, was chosen 'Proph et Seer and Revelator and President of the Church of Jesus Christ of Latter Day Saints in

Church of Jesus Christ of Latter Day Saints in all the world. This is the first time since the death of John Taylor, in 1887, that that office has been filled.

"At the same time George Q. Cannon was chosen as First Counsellor in the first Presidency," and Lorenzo Snow as President of the Tweive Apostles," all of them being disfranchised polygamists.

"The council of the Tweive Apostles was completed by filling all vacancies. A large portion of the Tweive Apostles, and the high dignitaries of the Church are polygamists, and all are reputed to be open believers in the doctrine. Indeed, it is believed that no one can be promoted to office in the Church unless he projesses a belief in it as a fundamental doctrine."

processes a belief in it as a fundamental docrine."

The report then quotes from speeches of
President Woodruff, George Q. Cannon, and
others in support of the assertion, and adds:

"It is the opinion of the Commission that
nothing but a wholesome fear of the penalties
of the law leads them to even make a pretence
of obeddence to it and that there has never
been any change in the gospal ordinances.

"The Commission is in receipt of reports
from its registration officers which enumerate
forty-one male persons, who, it is believed,
have entered into the polygamic relation in
their several precipcts since the June revision
in 1889. Clediting them with one plural wife
each, would give eighty-two persons thus reported as entering into the relation forbidden
by law, and said to be forbidden by the Church
authorities." authorities."

The belief is also expressed that only a small

authorities."

The belief is also expressed that only a small proportion of polygamous marriages are reported, as many of the registrars are members of the Mormon Church.

The Commission recommends that the powers of the Commission be so enlarged as to authorize and enable it to issue instructions which shall be binding upon the registrars of its appointment in the performance of their legal duties. The report also recommends the enactment of a law similar to the Idaho test law, "belleving that it could do more to put an end to the teaching and practice of polygamy than has been accomplished by the partial enforcement of existing laws."

In conclusion the Commission reports what it said in its last report—that in this matter the Government and Congress should take no backward or even wavering steas but should continue the active and vigorous enforcement of the laws and the improvement of them by the amendment of such as would make them more effective, and by enacting such other laws as experience may show to be wiser and more efficacious to accomplish the desired end.

Discouraged!

Bine, Dinbonriened, Depressed! are weak, your brain tired, and your head aches; be-cause you pass restless nights, wake tired, and have lost your vim, energy, and enap; you are gloomy, de-pressed, and have a sense of anxiety or foreboding. You are discouraged, not because you are sick, for s your soul you know that there ought to be some

means of cure.
"Oh!" you wall, "I have tried so many things and
falled." You coward, you baby!

Tour nerves have simply gone back on

post.

Do you think that because you have falled to find the right cure once, twice, a dozen times, that there is nothing good in the world? Is it the part of a noble human soul, when health, happiness, life itself is at stake, to give up hope, to become weak and discouraged, simply because a bottle of this or a bottle of that or a doctor here or a doctor there failed to cure

course is one of the highest attributes, and nothing so quickly shows the weakling as discouragement. The

courageous or non-courageous soul is what makes us men or mice.
Suppose the matchless artists of the world had lost courage in the long and bitter hours of their disappoint ments: Suppose our great inventors, meeting obstacles on every hand, allowed their wondrous genius to droop with discouragement ore the steam engine, the telegraph, or the telephone were discovered! Suppose the learned astronomers, searching the skies night after night through weary years, had become hopeless, dis heartened, discouraged before gravitation became a

For two years I was one of the most miserable of mankind. I had indigestion and nervous dyspepsia; everything I are disagreed with my stomach, which caused me to have a fluttering of the heart. I was very nervous at all times-cold feet and hands, sleepless nights, and, in fact, was cranky and ugly. In all, it was that I ever knew or heard tell of, and after giving up all hope of getting cured, I concluded I would try Dr. Greene's Nervurs. After taking two bottles I began to feel the effects of it, and censitumed until E consid-ered myself cured. I had now no more indigestion or dyspepsis, my nerves were strong, no more trouble with my stomach or finttering of the heart; no cold feet or hands. I sleep well and get up refreshed; in fact, I feel I am myself again, all due to Dr. Greene's Nervura.
